- **ZOE Antimicrobial coating***

WONDERFILL

ARTIFICIAL TURF INFILL

Available in: 16/30 Green

***WONDERFILL can be used to infill artificial lawns, playgrounds and putting greens. WONDERFILL has a special coating which includes Zinc Omadine™ ZOE™ Antimicrobial to help prevent growth of bacteria, mold and mildew. This infill is less abrasive than other infills due to its shape. It helps keep turf blades standing up and prevents damage to the blades as well.**
